

STATEMENT OF PURPOSE

RS23506

The purpose of this legislation is to allow outdoor food courts to be eligible for beer and wine licenses so that sales of beer and wine might be allowed in these settings.

The bill defines terms and sets out that a partition needs to separate the area in which beer and wine is served and that the design and structure of the partition must be approved by the director. All other laws and regulations regarding the beer and wine licenses apply.

FISCAL NOTE

There may be a positive fiscal impact from an increase in sales of beer and wine licenses to these types of food courts. There could also be a positive fiscal impact from taxes generated when beer and wine is sold.
